Summary

As a Software Engineer at SELISE Digital Platforms, I design and develop web applications using WordPress and Next.js for clients in various industries. I collaborate with other engineers, designers, and project managers to deliver high-quality products that meet the user needs and business goals.

I have 5+ years of experience in web design and development across WordPress platforms. Furthermore, I started my career as an Internship Trainee at weDevs, where I learned the fundamentals of WordPress and React. I then joined weDevs as a Junior Software Engineer and worked on several projects involving custom plugins, themes, and integrations. I joined SELISE in Mar 2022 and have since worked on multiple projects using Next.js and WordPress.

Furthermore, I hold a Diploma of Education in Electrical Technology from Ahsanullah Institute of Technical and Vocational Education And Training. Besides, I also have certifications in JavaScript and C# from Sololearn and Udemy. I am passionate about learning new technologies and enhancing my skills. I am motivated by creating innovative solutions that solve real-world problems and provide value to the users and the clients.

Key Achievements

Enhanced Application Performance

Increased application performance by 30% using Next.js optimizations.

Led Successful Project Teams

Led a team to deliver 15+ successful WordPress projects on time.

Developed Efficient Plugins

Implemented a new plugin that reduced loading times by 25%.

Improved Team Skill set

Trained 10+ junior developers, expanding their skills by 40%.
